

FABTECH

FABSERVICE A TRULY UNIQUE SOLUTION FOR SERVICE

FABTECH

OUR MISSION:

TO FULFILL POTENTIAL

Our mission to fulfill the potential of our clients, employees, and stakeholders has made Fabtech the leaders in the commercial kitchen and laundry industry in the Philippines. Our journey of 30 years has brought us to the largest kitchen projects in the Philippines including Okada Manila, Grand Hyatt Fort Bonifacio, Shangri-la the Fort, Manila Hotel, and many more.

We developed our own internal database management system that allows us to track all of your equipment so you don't have to.

UNIQUE ASSET MANAGEMENT SYSTEM

As a solutions provider, we are constantly innovating to adapt to ever-changing global standards. One of our newest internal developments is called the FABService Mobile Application, which enables you to access all your service related information from any device. This app has been developed internally in response to the issues that our industry often encounters.

We developed our own internal database management system that allows us to track all of your equipment so you don't have to.

CURRENT ISSUES

- Multiple contractors lead to unavoidable miscommunication and confusion as to who is responsible for equipment.
- Information turn-over to operators is limited due to communication gap and limited set of documents.
- Lack of transparency due to process and gatekeepers.
- Service is poor due to communication gap.

ADVANTAGES

- Internally developed cloud-based database system that can be accessed via multiple platforms.
- View and track all equipment, service orders, and service quotations.
- Generate reports and service orders through the app.
- Can be accessed by multiple users using automated signatures creating a transparent network.

We developed our own internal database management system that allows us to track all of your equipment so you don't have to.
